

The Honorable Greg Abbott
Governor of Texas
P.O. Box 12428
Austin, Texas 78711

Dear Governor Abbott:

RE: Recycling Market Development Plan

The State of Texas Alliance for Recycling (STAR) thanks you for your continued support of the creation of the Recycling Market Development Plan, which passed in the 86th Legislative Session, and which is due for release in Q3 of 2021.

STAR members and stakeholders look forward to continued collaboration with the State and are optimistic that the upcoming recycling plan will identify growth opportunities for both business and industry that could result in more jobs, new technology, infrastructure, manufacturing, and investment for Texas.

Some of these opportunities will require future legislative action and STAR hopes we can count on your support of those efforts in the 88th Legislative Session, for an industry that has demonstrated over \$3 billion dollars in economic impact for Texas.

Please see the attached brief which demonstrates enthusiastic participation from both the private and public sectors and offers valuable insight into the solutions for the challenges facing the recycling industry of Texas.

We look forward to working with you, if we may be of any assistance, please do not hesitate to contact us.

Respectfully,

Gigi Gephardt
Chair | STAR Business Council
